

# Public Sector SAFETY REPORT

## **Public Sector enforcement activity April through June 2001**

- One hundred twenty seven citations with penalties were issued for violations of occupational safety and health regulations.
- The sum of \$49,760 in penalties was assessed.
- The most frequent violations involved respiratory protection, personal protective equipment, confined space entry, and electrical safety.

## **Upcoming inspections**

Public sector workplaces that have not been inspected by a Public Sector Enforcement Officer in the past five years are likely to be inspected within the next year. Public sector managers who want no enforcement assistance with safety and health before they are inspected can call SafetyWorks! for free, voluntary training or consultation. Call 1-877-SAFE-345. (TTY: 1-800-794-1110).

## **Sign up for free classes from SafetyWorks!**

Use the same numbers as above to call SafetyWorks! for a schedule of classes that start in September. Or find the schedule on our website: <http://www.state.me.us/labor/blsmain.htm> (click on Safety and Health Classes).

## **Board of Occupational Safety and Health activities**

- The Board has been charged with adopting rules for protecting minors in public schools.
- An ad hoc committee established to review and update the Minimum Safety Laws for Firefighters will give its first report to the Board in September. Look for more information on these matters in future issues of this Report.

## **2001 Maine Safety and Health Conference**

This annual conference is an opportunity to learn more about safety and health through classes, vendors and networking. It will be at the Holiday Inn by-the-Bay, Portland, from September 19-21, 2001.

For more information call the Maine Safety Council at 854-8441.

## **Ladder hazards and maintenance**

Improper placement and defective parts usually cause fire department ladder accidents. Proper placement is a training issue, while defective parts can be addressed through a proper and thorough inspection. Prevention starts with good standard operating guidelines, adequate ladder maintenance, and inspection procedures.

- **Wood Ladders** - Should be protected with a clear sealer varnish, shellac, linseed oil or wood preservative. Wood ladders should not be painted. Paint will hide defects.
- **Fiberglass ladders** - Should have a surface coat of lacquer maintained. If it is scratched beyond normal wear, it should be lightly sanded before applying a thin coat of lacquer.

More information on fire department ladder safety can be found at [www.state.me.us/labor/bls/newpsw.htm](http://www.state.me.us/labor/bls/newpsw.htm)

**Regulations and compliance assistance for Maine public sector workplaces can be found on the internet at <http://www.state.me.us/labor/bls/newpsw.htm>**

The Maine Department of Labor provides equal opportunity in employment and programs. Auxiliary aids and services provided upon request.

**Return Service Requested**
